Education

PhD Astronomy

MAX PLANCK INSTITUTE FOR ASTRONOMY

- Thesis Title: Dynamical Models of Omega Centauri
- Thesis Supervisor: Dr. Nadine Neumayer

2024-2028 (expected)

Heidelberg, Germany

MSc Astronomy

SAINT MARY'S UNIVERSITY

- Thesis Title: Dynamical Inference of Black Hole Populations in Globular Clusters
- Thesis Supervisor: Dr. Vincent Hénault-Brunet

2022-2024

Halifax, NS, Canada

BSc Honours in Astrophysics

SAINT MARY'S UNIVERSITY

- Thesis Title: The Effects of Binary Stars on Recovered Remnant Populations in Globular Clusters
- Thesis Supervisor: Dr. Vincent Hénault-Brunet
- Faculty of Science Dean's List: 2019, 2020, 2021, 2022

2018 - 2022

Halifax, NS, Canada

Research

PhD Thesis

MAX PLANCK INSTITUTE FOR ASTRONOMY

- Supervisor: Dr. Nadine Neumayer
- Using state-of-the-art datasets to constrain the present-day dynamics and formation of Omega Centauri, the most massive globular cluster in the Milky Way, and likely our nearest galactic nucleus.

Sep. 2024 - Present

Heidelberg, Germany

Masters Thesis

SAINT MARY'S UNIVERSITY

- Supervisor: Dr. Vincent Hénault-Brunet
- Began the computation of a grid of dynamical models of globular clusters with a bottom-light IMF.
- Extracted mock data from a large grid of pre-computed dynamical models.
- Developed a method to test dynamically-inferred remnant populations on mock data.
- Developed and applied a method to used pulsar timing data to constrain dynamical models of globular clusters.

Sep. 2022 - Aug. 2024

Halifax, NS, Canada

Honours Thesis

SAINT MARY'S UNIVERSITY

- Supervisor: Dr. Vincent Hénault-Brunet
- Developed a method to include the dynamical effects of binary stars in equilibrium models of globular clusters.
- Tested the effects of binary stars on recovered remnant populations in globular clusters.

Sept. 2021 - Apr. 2022

Halifax, NS, Canada

Undergraduate Research Assistant

SAINT MARY'S UNIVERSITY

- Supervisor: Dr. Vincent Hénault-Brunet
- Developed a method to include pulsar timing data in the fitting of multimass equilibrium models to globular clusters.
- Updated our existing stellar population synthesis code to use the latest prescriptions for black hole natal-kicks and ejections.
- Obtained strong constraints on the dark remnant population in 47 Tuc which represent a significant improvement over previous works.

Jan. 2020 - Sep. 2021

Halifax, NS, Canada

Publications

Probing Populations of Dark Stellar Remnants in the Globular Clusters 47 Tuc and Terzan 5 Using Pulsar Timing

P. J. SMITH, V. HÉNAULT-BRUNET, N. DICKSON, M. GIELES, H. BAUMGARDT

ApJ

Nov. 2024

Multimass modelling of Milky Way globular clusters - II. present-day black hole populations

N. DICKSON, P.J. SMITH, V. HÉNAULT-BRUNET, M. GIELES, H. BAUMGARDT

MNRAS

Mar. 2024

Multimass modelling of Milky Way globular clusters - I. Implications on their stellar initial mass function above $1 M_{\odot}$

N. DICKSON, V. HÉNAULT-BRUNET, H. BAUMGARDT, M. GIELES, P.J. SMITH

MNRAS

Jul. 2023

Teaching

Teaching Assistant

SAINT MARY'S UNIVERSITY

Halifax, NS

Sep. 2022 - Present

- Courses: Math Methods I, Quantum Mechanics I, University Physics II, Introduction to Astronomy, Life in the Universe
- Duties include marking and managing tests and assignments, assisting with in-class demonstrations and assisting individual students during lectures.

Outreach and Volunteer Activities

Observatory Tour Volunteer

BURKE-GAFFNEY OBSERVATORY

Saint Mary's University

2022 - Present

- Assist with public tours and open-houses at the Burke-Gaffney Observatory.
- Answer questions from the tour participants and operate small telescopes on the observing deck.

Volunteer Judge

SMU DEPARTMENT OF ASTRONOMY AND PHYSICS ANNUAL MINI-SYMPOSIUM ON UNDERGRADUATE SUMMER RESEARCH

Saint Mary's University

Sep. 2023

- Evaluate student presentations and select a winner and runner-up.

Talks and Presentations

Globular Clusters and Their Tidal Tails: From the Milky Way to the Local Group

ORAL PRESENTATION

May 2024

University of Toronto

Institute for Computational Astrophysics Symposium

ORAL PRESENTATION

Feb. 2024

Saint Mary's University

MODEST-23

POSTER PRESENTATION

Aug. 2023

Northwestern University

Eastern Association for Stellar Astrophysics

ORAL PRESENTATION

Oct. 2022

Virtual

Atlantic Undergraduate Physics and Astronomy Conference

ORAL PRESENTATION

Feb. 2022

Université de Moncton (Virtual)

Canadian Undergraduate Physics Conference

ORAL PRESENTATION

Nov. 2021

Ryerson University (Virtual)

SMU Department of Astronomy and Physics Annual Mini-Symposium on Undergraduate Summer Research

ORAL PRESENTATION

Sep. 2021

Saint Mary's University (Virtual)

Canadian Astronomical Society AGM 2021

POSTER PRESENTATION

May 2021

Dominion Radio Observatory (Virtual)

Atlantic Undergraduate Physics and Astronomy Conference

ORAL PRESENTATION

Feb. 2021

Dalhousie University (Virtual)

SMU Department of Astronomy and Physics Annual Mini-Symposium on Undergraduate Summer Research

ORAL PRESENTATION

Sep. 2020

Saint Mary's University (Virtual)

Honours & Awards

2022	Tindall/Steinitz Award in Research , Atlantic Universities Physics and Astronomy Conference	Université de Moncton
2021	Science Atlantic Communication Award , Atlantic Universities Physics and Astronomy Conference	Dalhousie University
2020	1st Place Award , Saint Mary's University Department of Astronomy and Physics Annual Mini-Symposium on Undergraduate Summer Research	Saint Mary's University
